

Order pickers and VNA trucks

Reach
the Top

Reliability

Every warehouse has its singularity: OM has the right solution. Always.

The right team into your warehouse

Vertical and horizontal order pickers are designed for all type of picking: fractioned, massive, line by line, by area.

Joined with the new generation of VNA Trucks, we can offer a complete and optimized solution for your logistic unit.

Customer's friendliness

Choose OM means get a strong partner who can give you the right solution

XLOGO^{ac} – XOP 0.7^{ac}

Horizontal order pickers XLOGO and XOP0.7 are designed to optimize low level picking. XOP0.7 platform can reach 1200mm in absolute stability and safety. Italian design, top performance in this category, low maintenance, accurate ergonomics make XLOGO and XOP0.7 the best partner for your operator.

XOP1

Vertical order pickers XOP1 series are strong and compact, ideal for picking height till 3700mm. Available with fixed forks, FEM forks (in conjunction with auxiliary lift) and with different platform heights. According to version, XOP1 trucks could be standard equipped with overhead guard and lateral barriers.

XOP2^{ac} – XOP3^{ac}

Those trucks have top performance and can reach picking heights till 6965mm (XOP2^{ac}) and 10480mm (XOP3^{ac}). Available without auxiliary lift (in conjunction with walk-on-pallet barriers and cage around the pallet) or with auxiliary lift (in conjunction with fixed or FEM forks). Thanks to MASTERDRIVE system those trucks are fully settable and could be easily adjustable to all conditions.

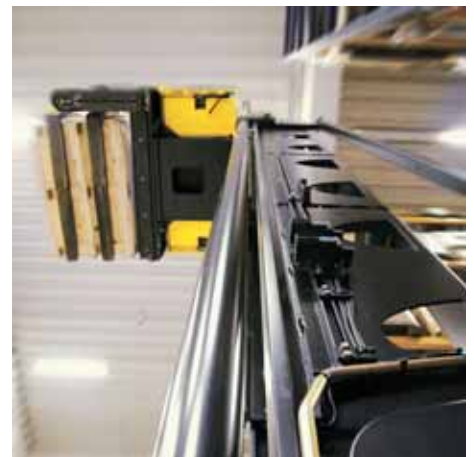

XNA^{ac}

Very Narrow Aisle trucks belong to a new modular concept design that gives them strength, flexibility and ensure a complete integration with the logistic unit. Available from 500Kg to 1500Kg, up to 14200mm for storage (14900mm for picking). Fully customizable with 6 different type of mast, 5 type of cabs (including closed and cold-store cabs) and a complete range of optional.

Your success is our major satisfaction

The wide range of trucks, the real possibility to meet clients' needs, the high level of customization and the high choice of drives make OM trucks the best partner for your logistic unit. Customer friendliness is the OM philosophy to face everyday challenge

Dynamism

We take care
of your needs; we optimize
your warehouse at best

Despite of all advanced solutions, picking is still an activity done by human beings, and this is a variable point in the warehouse management. Having a truck dedicated full time to picking would, at the same time, increase operator performance and keep the work functional and easy. The operator is always in OM care.

High efficiency
under your control
